

The Residential Elevator Series

Unapologetically Unobtrusive

- One or two day installation.
- The smallest model takes up less than 1.3 sq yards of your home.
- The elevator doesn't require extensive building work (no machine room or pit).
- Once the lift is upstairs, it disappears from the downstairs, freeing space.

Designed for the Home

Wessex Residential Home Elevators are designed for the home and are perfectly suited to the home environment.

We have been refining our product range in Hampshire, England, for over 40 years, and the Residential Home Elevator range is a testament to the years of work that have gone into our research. Every element has been carefully considered...

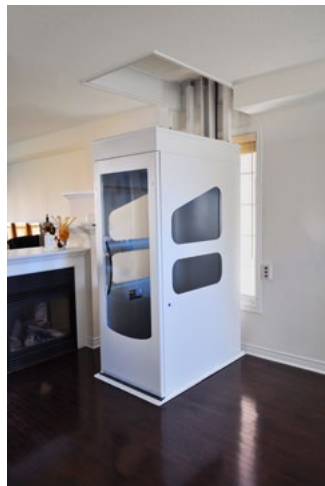

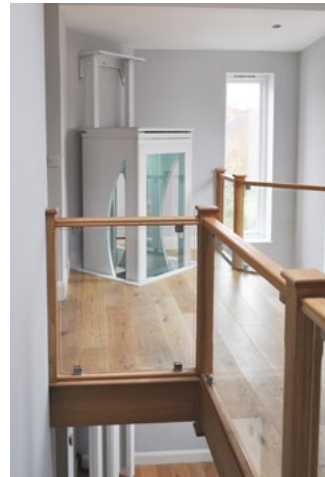

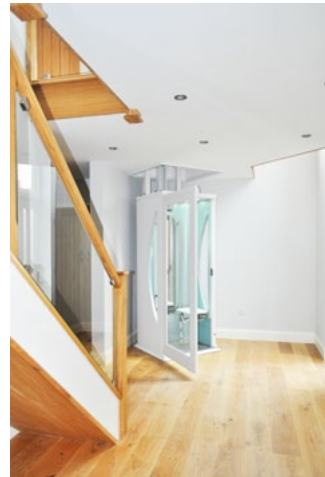

Future Living is Here

Future-proof your home with a Wessex elevator.

If you can no longer manage the stairs, and don't want your staircase obstructed by a stairlift, our lifts are probably the most dignified and stylish way to travel between floors.

Our elevator can add value to your property.

Form Follows Function

Our home elevators are primarily designed with great features and functionality in mind.

They just happen to look great as well! Their understated design works in almost every setting.

What is Elesse?

Elesse is a higher specification of the VE model. Currently, you can order the VE15/VE25 with the Elesse specification, which makes the final elevator even more luxurious and really stands apart from the crowd.

With features like internal mirrors, upgraded pushbutton controls, power door as standard, attractive sidepanel glazing and metal push button controls, this is THE premium home elevator.

What is the VE?

The VE is a Residential Elevator that is functional, minimalistic and reliable. It comes in a range of size options to suit your needs and is our best selling Home Elevator in the USA.

An iconic member of the through-floor home elevator range.

What is the VE? Freedom in your own home.

Door Locking: One of our most frequently asked questions is about opening the door when the lift is moving. Short answer; they won't, thanks to our smart 'interlocking' system.

Safety Sensors: Quickly bring the elevator to a halt if they sense something is in the way.

Trapboard: The trapboard serves as an aesthetic and safety feature. It offers a code compliant fire seal in both directions. Additionally, the upstairs

Battery Backup Lighting: Ensuring you won't get left in the dark in the event of a power outage. Set on a timer, they will turn off when the elevator has not been used for a while.

Glazing: Our VE has been designed to be as bright and as open as possible.

Power Door: Comes as standard with the Elesse Spec.

Level Access (no pit): The floor of the elevator is designed to allow things to be wheeled in and out of the elevator car, without a pit construction.

Illuminated Push Button Controls: Intuitive, power at your fingertips!

Let your imagination
be the only limitation

We design the perfect home elevator solution for you. Nowhere is this more evident than in the near infinite number of choices you can make when it comes to decorating the interior of your elevator.

Technical Detail

For more information on the technical details of our elevators, please refer to the Wessex 'Planning Guide'.

	The Elesse	VE15 VE25	VE31 VE51	VE36 VE56	VE38 VE58
Capacity*	1-2 passengers		2-3 passengers		
Footprint Length	34 7/8 "		57 1/4 "	59 1/4 "	65 15/16 "
Footprint Width	37 1/4 "		35 1/4 "	37 1/4 "	41 9/16 "
Elevator Speed	12 feet per minute				
Door Type	Power		Manual (Power Optional)		

* Based on a Safe Working Load of 550lbs (all Wessex through-floor elevators) and taking into account the elevator size.

A Code Compliant Company

We pride ourselves on meeting the design and safety standards wherever we sell our elevators. In the USA, we're ASME 17.1 code compliant. We also comply to these internationally recognised codes...

Customer Care

Our dealers are carefully chosen to install our products and more importantly, to ensure you receive an after sales service second to none.

We strive to ensure that they share our ethos and that they work to the highest standards. Naturally, all of our dealers follow a rigorous training program and are supported at all times by a dedicated Wessex team.

Other Wessex Elevators

All Wessex Elevators are the ultimate in design inspiration.

Building on an impressive pedigree spanning over four decades of design innovation, the Home Elevator encapsulates the qualities embedded in every Wessex elevator.
